

Mathpath Tutor

SVM App Overview

Prepared: May 27, 2026

Repository: <https://github.com/Shockvaluemedia/mathpath-tutor>

Category: Education and learning

Launch Status: Ready candidate

What This App Is About

An adaptive AI math tutoring platform that supports students from grade school through high school. MathPath diagnoses each student's math level, identifies skill gaps, adapts instruction by age and grade band, and provides personalized tutoring that builds mastery and confidence.

Ready Now

- Web application foundation
- Dashboard experience
- User authentication flow
- AI-assisted workflow
- Persistent data model
- Admin or operator controls
- Assessment or diagnostic flow
- Student or family management

Coming Soon

- Expanded learner insights
- More adaptive content paths
- Parent or admin reporting upgrades
- End-to-end QA and production hardening
- Analytics, monitoring, and error tracking
- Customer onboarding and support workflows

Launch Notes

- Confirm product owner, launch audience, and pricing or access model.
- Review README, environment variables, and deploy notes before public launch.
- Run QA across the main user journey and admin/operator flows.

- Confirm privacy, security, and support language for the intended audience.
