What This App Is About

 **DISCLAIMER:** This platform is for education, planning, journaling, and risk awareness only. It does not provide financial advice, investment recommendations, or trade signals. Options trading involves significant risk and may not be suitable for all investors.

Ready Now

- Web application foundation
- Dashboard experience
- User authentication flow
- AI-assisted workflow
- Persistent data model
- Admin or operator controls
- Deployment foundation

Coming Soon

- Risk controls and compliance language
- Scenario tracking and decision history
- Deeper reporting dashboards
- End-to-end QA and production hardening
- Analytics, monitoring, and error tracking
- Customer onboarding and support workflows

Launch Notes

- Confirm product owner, launch audience, and pricing or access model.
- Review README, environment variables, and deploy notes before public launch.
- Run QA across the main user journey and admin/operator flows.
- Confirm privacy, security, and support language for the intended audience.
